

Username & Passwords

Having a hard time remembering your usernames and passwords? Check this list to see how to log into different sites.

MOST sites use the username 25lastnamefirstinitial (example: 25McCartneyS), although some will use a "long username" with your **WHOLE** first name (25McCartneyStacy)

Passwords: **MOST** passwords use your Student ID number somewhere in them. This is a 9-digit number that starts with 225 and ends with 650. The numbers in the middle are different for each student (example: 225123650). Sometimes you might have to add the letters mcm to the end of the number.

www.ptsdwebapps.com
classroom.google.com

BOTH of these sites use:
Email: username@ptsdwebapps.com
Password: the one you made up
